TRILOBAL  
POLYESTER

Sylko Art - the perfect answer for small lettering

Sylko Art is a fine count bright trilobal polyester specially developed for improving the quality of small lettering - on fabric or leather.

You can see from the example above the improved clarity and elegance. More delicate designs can be embroidered in a smaller area than is possible using a normal 120d/2ply thread - and the definition of small lettering is much improved.

Sylko Art is a more productive thread for use in small designs; the optimum clarity of design can be achieved with the minimum number of stitches - and no danger of thread breakage caused by using too much thread in too small a space.

## Specifications:

Ticket TEX	Construction (den/ply)	Tensile Strength (cN)	Elongation (%)	Length per cone (m)	Recommended needle size (Metric/Singer)
18	76 x 2	56.4	25%	1000m	55/7 or 60/8

Product Information

### Technical specifications

Tex #	Total Dtex	Strength (g)	Elongation %	Needle Size* Singer / Metric
20	200	667	25%	9 / 65

#### Chemical properties:

Mineral acids: resistant to most mineral acids  
 Alkalis: resistant to stronger alkalis, especially at higher temperatures  
 Organic solvents: generally unaffected but soluble in some phenolic compounds  
 Bleaching: unaffected  
 Insects/Micro: unaffected  
 Organisms (mildew/rot): unaffected  
 Moisture regain: 0.4%

#### Fastness Properties: (all grade 4 or above)

Wash fastness: ISO 105 C04  
 Rub fastness: ISO 105 E01  
 Hypochlorite fastness: ISO 105 X12  
 Dry cleaning fastness: ISO 105 D01

(These fastness grades represent the minimum fastness performance levels; in practice, the majority of shades will exceed these levels.)
