Fibre Composition: 75% continuous filament polyester : 25% cotton staple fibre

Physical Properties

Property	Unit	Value	Test Method
----------	------	-------	-------------

Fastness

Fastness Category	Typical Value*	Global Test
-------------------	----------------	-------------

* Fastness levels above are typical values achieved for the majority of GCR shades. Many shades will achieve higher levels than those quoted. However, it is more difficult to achieve these fastness levels for certain shades, e.g. dark blues, bright reds and black. If the application requires higher levels of fastness than those quoted above the customer should check the fastness level before use.

* High levels of fastness in categories not listed above, e.g. chlorine bleach, can be produced as a special requirement.

Product Details ("Z" twist)

Article Number	Support	Length	Units per Box	Recommended Needle Size* (Singer / Metric)
----------------	---------	--------	---------------	---

* Needle size recommendations are a guide only and ultimately depend on the sewing application.

Coats *terko satin* complies with Oeko-Tex Standard 100 class 1 and all major retailer brands requirements for restricted chemicals.

** Coats reserves the right to change the above data without prior notice.
